

BLACKHOLE INFIVERSE — TASK SPECIFICATION

Task Title: Biometric Attendance & Hourly Salary Reconciliation Engine

Assignee: Rudra Parmeshwar

Department: Web Development

Priority: Medium

Generated Date: 18/08/2026

Project Overview:

Implement real-time reconciliation logic for biometric attendance punch logs and hourly employee salary calculations across all branch offices.

Key Specifications & Deliverables:

1. Parse daily biometric attendance CSV/PDF log files.
2. Match employee IDs, filter out holiday hours, and handle midnight shift spans.
3. Calculate hourly earnings with overtime rate multipliers.
4. Generate downloadable departmental PDF progress report for management approval.
